

REPORT & SURVEY

Meeting the Needs of California's Women Veterans *A California Research Bureau Report*

Given the increasing number of women veterans, the *Commission on the Status of Women* and Assemblymember Lois Wolk (D-8) requested that the CRB assist state policymakers in identifying and meeting their needs. This report will describe specific issues, services needed, gaps, and barriers. It will offer policy options for action.

WOMEN VETERANS: You are invited to input to this report via this survey so that your experiences and needs can be reflected (you can also call and talk with me...). **SERVICE PROVIDERS** and others may also use the survey as a means to provide their views...

The survey can be completed online at:
